MR. FABRIS,

ENCLOSED IS 2 BUCKS FOR A COPY OF THE HACKERS MANUAL

I FOUND AN ERROR IN THE "Simon" PROGRAM, "ARCADIAN" MARCH 23 1979.
LINE)70 SHOULD READ:

>70 FOR X = 1 TO A; IF @(x)=1
GOSUB 1000; GOTO 110

THE ORIGINAL READS GOSUB 130
AND WILL NOT GOTO THE TOP
SQUARE OF THE CROSS, ⌗.
THEN, RESETS THE GAME, LIKE A
MISTAKE WAS MADE BY THE PLAYER.

CAN YOU GIVE US AN IDEA OF HOW MANY SUBSCRIBERS YOU HAVE?

I AM WORKING ON AN OPTICLY-COUPLED FULL SIZE KEY BOAR, WHICH, HOPEFULLY, WILL ELIMINATE MOST OF THE "SHIFT BUTTON" PROGRAM TIME, IF YOU THINK THIS MIGHT BE OF INTREST TO OTHERS, I'LL LET YOU KNOW IF IT'S A SUCCESS.

AND FILL YOU IN. IF ANY ONE ELSE HAS ANY THING TO OFFER ON THIS LET US KNOW

(KEYPAD WIRING ENCLOSED)

THANKS

TOM JOHNSON
